Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

This is a response to the amendment filed 11/23/2005. Claim 2--6 and 12-19 are pending.

Election/Restrictions

1. Newly submitted claims 13-18 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claims 13-18 are directed to figure 11 which is a distinct species from claims 2-6, 12 and 19 reading on figure 10.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 13-18 have been withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Objections

2. Claim 19 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim can not depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claim 19 has not been further treated on the merits.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 2-6, 12 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2, the recitation of “adjusting means” in line 8 is indefinite because it is misdescriptive. Claim 2 reads on figure 10. Figure 10 shows a selector (SW4), comparing means (400) and calculating means (411). Figure 10 does not show the adjusting means. Applicant is required to particularly point out as to how the adjusting means is read on figure 10. The recitation of “calculating means for adding a value corresponding to said error signal to said input signal” in lines 17-18 is also misdescriptive. Figure 10 shows the calculating means (411) performing its calculating on the output of the comparator 400. The calculating means does not add value corresponding to the error signal to said input signal as claimed.

In claim 6, the recitation of “holding means” lacks proper antecedent basis.

In claim 19, the recitation of “any one of claim 6” is unclear as to what the applicant means.

Claims 3-5 and 12 are indefinite because of the technical deficiencies of claim 2.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 2, insofar as understood, is rejected under 35 U.S.C. 102(b) as being anticipated by Chu et al. (USP 5,793,230).

Figure 1 of Chu et al. shows offset compensating apparatus comprising a pair of inverting

and non-inverting output signals (Vout), a selector (P1), adjusting means (C1, p1 and p2 on the left hand side of C1), comparing means (18), calculating means (the summing node for summing the output of the comparing means with the input signal Iin) as called for in claim 2.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
